- First game starts at 5:45. These **are time limit games; no minimum innings**. The clock starts at 5:45 whether a team is ready or not. Teams that are early and ready can and are encouraged to start early to get as much play time in. The earlier you start and the quicker you move, the more innings you get. So, to get the most play time, be ready to go and hustle between innings. **1 Hour 10 Mins Last Inning**. We also need to have a **Drop Dead after 1 hour 20 mins** to allow teams to move between fields. If there is a drop dead the score will revert back to the last completed inning. **Game 2 starts at 7:15 sharp**. The Umpires' time is official and their ruling stands.
- ***After 1st Inning - Warm up for new pitchers only to move the game along.***
- If the home team is leading and at bat at 7:00, the game ends.
- **There are no mercy Rules - But will play with a 5 run rule to get the most of playing and ensure that games don't get ran up on and allow for max number of innings.**
- Games can end in a tie.
- No pre-game infield practices.
- No hitting practice after your first game starts. No hitting practice between games.
- (2) out catcher rule. Try to follow this rule. If the catcher is on base with two outs, that team will replace her with the last player called out.
