GCI Home Improvements  
14427 Round Lick Lane  
Centreville, VA 20120

Mr. Guzman and Etienne:

It has been two months since the work, roofing and vinyl siding, was completed on our home by your company. To say the least, we are extremely happy that we granted you the contract. Our home not only looks new but it is beautiful and has met every expectation that we ever dreamed of for our home.

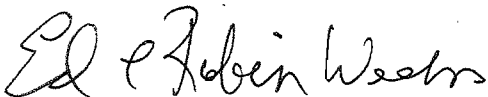

Your company's craftsmanship and attention to detail (doing the job right the first time) is truly amazing. We both have walked around the house several times just to admire the improvements and have not found a single item that was not done top notch. We've had neighbors mention how much they like our home. We have also noticed that new roofing and siding remarkably reduced the outdoor noise inside the home. We've lived in our home for almost twenty years and these improvements will make it hard for us to leave once we retire.

There is one instance by GCI associates that made a great impression on both of us that truly shows the quality of workmanship of this company. It occurred at the end of a long days work, when there is more night than day, the associates are searching our yard with a magnet to make sure that all loose nails and trash have been removed. That says a lot about the diligence, care and professionalism that GCI brings to a job.

We would also like to thank Joseph Etienne for his pain free estimate. His GCI proposal was clear and concise and presented in a stress free professional manner. His experience, knowledge and patience were invaluable throughout the project and his personal touch is greatly appreciated by both of us.

Please note that sometime in the future we plan on visiting the Checklist website and put in a good word for GCI which we feel is greatly deserved and highly warranted.

Thank you and have a great holiday.

Ed and Robin Weeks
