CEO Monthly Magazine Announces the Winners of the 2020 Global CEO Excellence Awards

Aug 12, 2020

United Kingdom, 2020– CEO Monthly magazine announces the winners of the 2020 Global CEO Excellence Awards.

Strong leadership is, by all regards, vital in business. Whether it be driving growth, or steering the company down a profitable path, leaders play a fundamental role in companies of all shapes and sizes. Yet, in this time of great difficulty, strong leaders are quickly distinguishing themselves through a baptism of fire: an unprecedented situation that is testing the abilities and skillset of CEOs new and old. While it is true that a company's overall success lies in the efforts of the greater team, CEOs, Managers and Directors have the weight on their shoulders when it comes to weathering particularly intense storms.

In many ways, then, there's no better time to shine a spotlight into the dark to recognize and acknowledge those that are moving forwards. Making strides. Driving on through the current economic challenges to an altogether more hopeful and brighter future. Awards Coordinator Katherine Benton took a moment to discuss the extraordinary success of this year's program: "It's always a pleasure to interact with the CEOs and leaders that are named in the Global CEO Excellence Awards. This year was certainly no different. I wish all of those recognized in the awards a wonderful and successful year ahead. Congratulations".
