

## Senior Manager Improvement Workshop

Linking continuous improvement to your strategic direction

### YOUR NEEDS

To set a True North direction and apply Continuous Improvement in a sustained and determined manner

### OBJECTIVES

Understand the following topics:

- › Policy & strategy deployment
- › Process mapping to uncover hot spots
- › Waste in all forms
- › Visual management & 5S
- › Introduction to Lean Six Sigma
- › Appropriate levels of project sponsorship

### WHO IS IT AIMED AT

- › Leaders engaged in setting the direction of your organisation's internal continuous improvement agenda.

### PREREQUISITES

Attendees should have responsibility or influence over strategic business objective setting.

### BENEFITS TO YOUR ORGANISATION

- › Provide direction to an organisation as it embarks on a continuous improvement journey
- › Provide insights on how a continuous improvement programme can be targeted to address waste, in all its forms
- › Raises awareness of Lean Six Sigma as a continuous improvement methodology

### 1 DAY WORKSHOP (8 delegates max.)

During this 1 day workshop you will explore:

- › How improvement targets can be identified
- › An introduction to Strategy Deployment, using VMOST as a means of directing your Continuous Improvement effort
- › How using Process Mapping at 3 levels (SIPOC, Activity Level & Value Stream) will uncover the issues that prevent flow and cause blockages in your processes
- › How to address general wasteful activity, waste analysis and future state design
- › Visual management, 5S & information centres as a means of engaging with your staff and ensuring ordered workplace management.
- › The role of a Project Sponsor and how a continuous improvement deployment might be managed, tracked and sustained over time.
