

Lorraine Weyermann - Independent Stampin' Up! Demonstrator

IN BLOOM BUNDLE

Flowers abound in this fun and happy set. Whether you stamp or die cut the images, there are so many ways to use this bundle. In fact even the stem stamp can be used to create a new and interesting background. Change it up by using your own color combinations.

MAKE IT YOUR OWN

Many moods can be created with the In Bloom bundle. Pair it with all kinds of different designer series papers. This is the Fine Art Floral DSP. I wanted to create a card that matched the depth of feeling in the greeting.
