

# Bubble Wand Craft Kit

**Materials Needed:** pipecleaner, small pony beads, bubble solution (recipe included here), small dish

## How to make a bubble wand:

1. Place the two ends of a pipe cleaner together and twist the bottoms together, leaving the top in a circle shape.

# Bubble Wand Craft Kit

## Bubble Wand Craft Kit

2. Start placing beads onto the bottom two pipe cleaner ends and pushing them to the top. You can create any color pattern you would like.
3. Once you fill the wand with beads, fold the end of the pipe cleaner up to hold the beads in place.

## Bubble Wand Craft Kit

4. Fill up a small dish with bubbles and dip the circle end of the wand into the bubbles. Blow on the wand to make bubbles. So fun and easy!

### Homemade Bubble Solution:

6 cups of warm water, 1 cup dish soap, 1 tbsp of glycerin or  $\frac{1}{4}$  cup of corn syrup (whichever you have) (vege glycerin in health food stores like Naked Naturals in Oceanside) Mix together slowly and leave to sit overnight. The glycerin/corn syrup make the bubbles more stable and bigger.
