

JOB HUNTING TIPS USING ENERGETIC TOOLS

By Lourdes Lebron

Getting a job can be very stressful. Whether you are looking for one or your position has been terminated energetic help can give you the edge you need to succeed in achieving this goal. The following article is going to give suggestions that may propel you faster in the job hunting market.

GRID FOR HELPFUL PEOPLE – Create a grid using Rose Quartz (friendly people), Angelite (angelic help), and Celestite (spiritual guidance) will aid in sending the right vibes out to people and attract folks who can aid you in your quest. Use a Clear Quartz in the center and surround it with the Rose Quartz, Celestite, and Angelite. Place it in the helpful people corner of your home. This is the right hand corner of your place from the front door. [Here is a link to a video that shows how to create grids.](#)

CHARGING WATER WITH CRYSTALS – Another terrific way of bringing crystal energy into your energy field is by charging water with them. You can have a glass pitcher filled with water on a counter and then surround it with Citrine (confidence), Sunstone (optimism) and Garnet (success). For an added charge, you can place the pitcher on a copper sheet. Please use caution and place on a heatproof surface away from flammable materials. The glass and water can cause a buildup of heat. ANGELS – The spiritual beings can boost your chances of finding the right job quicker. Ask Archangel Perpetiel to help you find the right job for you. If you don't know what you want to do, ask Archangel Gabriel for help. You can ask the Unemployment angel to send jobs your way. There are many unemployed angels out there and you can put one to work by asking for help. Lorna Byrne has written several books on how angels help and you may be surprised at how serendipity starts playing a bigger role in your life.

"WISH BIRD" - Use the wish bird to help achieve a goal. You color in the wishbird in the colors of what you want to achieve. Think of whatever colors symbolize your goal. Place this near your crystal grids, manifestation board, goals, and/or Archangel Perpetiel. The more energy you put towards a goal the better the chance to succeed. HERBS - Use spices like Cinnamon and Basil for abundance and success. Make up little prayers or affirmations as you cook to fill your food with positive energy that will be integrated into your body. For example, As I stir, please concur, to help me possess, much success. It doesn't have to be long or complicated, just effective.

AFFIRMATIONS – Affirmations can work on a cellular level to dissolve mental and emotional blocks keeping you from achieving your goal. Here is site with many for success, <http://www.secretchanges.com/Affirmations-for-Success.html>. Affirmations can also be used with energy work like Donna Eden's Five minute routine or with EFT.

PRAYERS – Prayers are another spiritual tool that works well with all the other tips mentioned. You can pray yourself or be put on prayers lists. [Here is link to a prayer list created by Jo Dunning.](#)

VISUALIZATION BOARD – These boards are a way of reminding yourself of what you wish to achieve. They can be large or small and can have images, words, drawings or tactile objects. [Here is a link on how to create your own vision board.](#)

AROMATHERAPY – Many scents can help bring the energy of success into your home. Fill your space with Bergamot, Allspice, and Cinnamon. You can use incense, essential oils or candles. Scented soaps and lotions (scented with natural oils) also carry the essence of these herbs and can filter down to you on a cellular level.

REIKI – Using Reiki to help you manifest success can increase the positive vibes you are sending to the universe and increase your personal power. Reiki

for Manifesting and Reiki for Goals are good videos to work with during this time.

CRYSTALS FOR CONFIDENCE – When going on interviews carry a Rose Quartz (friendly vibes), Citrine (confidence) and Sunstone (optimism). Imagine these colors surrounding you in layers with the Citrine closest to you, the Sunstone next, and the Rose Quartz on the outside.

PINK LIGHT – An easy way to send out favorable vibes is to wrap people in pink. Pink light sends out energy waves that fills a person's aura with the energy of love. By wrapping a person in pink they will feel more favorable towards you, because you are surrounding them with a soothing and comfortable energy. Here is how to do it. Imagine a ball of pink light above the interviewer's head. Start wrapping the ball around your this person as if you were wrapping a mummy from the head down. Fully wrap every square inch. As you get to the bottom, sink the ball into the ground and imagine it going to the center of the earth. I would do this as soon as you meet the person. Or if you know the person's name ahead of time, imagine going through the interview before hand and wrapping them in pink in your mind. It may take a while to get proficient at this technique, but it works wonders. I do it every time I go to the post office or meet a cranky person in a store.

The tips, ideas, and suggestions mentioned above are just a few of the ways you can assist yourself when looking for a job. There is always the physical world and you can join groups, network on line, and use the classifieds too. Talk with friends, family, and social media friends to get insight and leads. Doing both the physical and energetic can make job hunting much easier and less stressful.
