Connect with Archangels through Angel Reiki Sessions

One thing that is very important to me personally, is connecting with my angels and guides. Connecting with them give me hope, and provides me with strength when I want to give up.

During my Reiki sessions Archangel Michael is the first angel I call in. He provides the protection needed for both the person receiving and myself to have a safe session. After him, the angel called in depends on the person or situation. For many physical challenges it is Archangel Raphael. For communication issues, it is Archangel Gabriel. Archangel Uriel helps when something new is needed or when there is a lesson to learn. These are specific aspects of these angels, but they can and do bring in so much more depending on what the recipient needs.

To help others experience angelic energy more I am offering Reiki Angel Sessions. These sessions bring in the energy of the Archangels named above, along with their messages for you. If you have any questions, please let me know.
