### Reiki Infused Photos

Many people have written to me about Reiki Infused Photos and I am now excited to be offering them on my site! Reiki Infused Photos can be filled with one intention that can be used for your goals. These photos can be downloaded, used as screensavers, or printed out. When printed out, crystal grids can also be placed on them to amplify the energy. Use these photos with other complementary tools (compound energy) and physical action for optimum results. Please check this link for more information.
