  - CoF are part of place based factors - 11 factors that King County used were initially utilized and community readiness was gauged. Two years into COF focus, COVID hit and the focus turned to that response. Measures are being revisited. A Vulnerability Analysis has been pursued. There are some community concerns with this approach, so this is being reimagined.
  - Priorities of Focus are being identified in each area - Marcy showed chart of each community and these priorities.
  - Springbrook has readiness to act on priorities - including the work of Springbrook connections.
