

Disaster Relief Effort Report

Puerto Rico Seismic events January 2020
Phase 1: Emergency Community Support
Service Dates January 6-19, 2020
Completion Report

Service by:

B&R Emergency Training and Response Corp

**B&R Puerto Rico January 2020 Earthquakes
Disaster Relief Phase 1**

Background

- At the end of December 2019 and in early January 2020, the southwestern part of the island of Puerto Rico was struck by an earthquake swarm including six that were of magnitude 5 or greater. The largest and most damaging of this sequence occurred on January 7 and had a magnitude of 6.4. At least one person was killed and several others were injured. The earthquakes still persist and vary in intensity and damage extent.
- Many structures have been damaged and the monetary and psychological toll of the events is still unmeasurable.
- Multiple NGOs, including B&R Emergency Training and Response Corp, are working in providing disaster relief to those in need
- Phase 1 describes the acute phase of providing humanitarian assistance supplying basic needs in affected areas.
- This presentation provides a description of our intervention during this Phase 1
