

Creative Learning Circle skill-building opportunities at Shore
with Joanna Ettore, fiberartist
Balancing Point Creative Studio (www.balancingpointstudio.com)

In collaboration with other Shore Creatives, Joanna offers to continue the tradition of **Each One Teach One** using these simple skills that keep going for a lifetime of tactile handwork for useful as well as meditative creative expression. Not a make-and-take but a *fiber explore* aimed at using simple skills to blend found materials for color and texture in endless possibilities.. Oh, the places you can go!

Free Form Crochet tapestry
Informed by Nature

An introduction to textiles
and needlework for
young and old, individually
or in group projects

Knitting looms and lucets
Knitting without needles with
4 to 194 prongs

Loom knitting:

One skill, endless ways to keep learning fabric making.

Knitting without needles with 4 prongs to 100 prongs or more

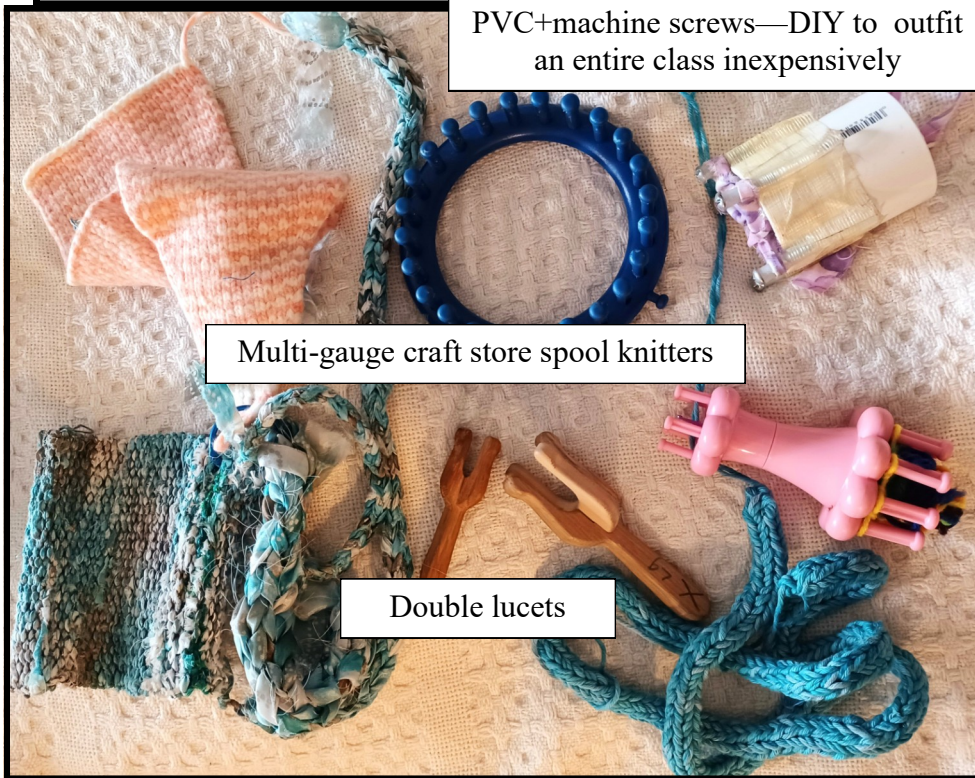

Double lucets/PVC/: tubes made with yarn, ribbon, fabric strips

The same stitch-making skill can be used to create knitted tubes, rectangles and triangle shaped fabric for hats, socks, bags, even sweater parts

Knitting looms include plastic and metal knitting machines for production work in every kind of knitted fabric. The best for stash-busting.

PVC+machine screws—DIY to outfit an entire class inexpensively

Multi-gauge craft store spool knitters

Double lucets

Sock/mitten fine gauge looms

Fine/midgauge/bulky knitting machines
