## CLASS DESCRIPTION:

NFPA 1670, 1006, & 1001 - 2 day (16 hours) Vehicle & Machinery Technical Extrication course designed for 20 - 32 students.

## CLASS FOCUS:

Designed for Technical Rescue personnel with a focus on heavy lift, stabilization, disentanglement and extrication. Props to consist of passenger and commercial vehicles as well as machinery.

## PPE - TURN OUT GEAR:

Firefighters must be equipped with appropriate PPE that meets WAC 296-305-02001, Personal Protective Equipment and Protective Clothing, Extrication PPE (Department approved) may be appropriate for some scenarios.

This sixteen (16) hour program was developed to provide realistic Technical Heavy Extrication training. The course will offer life-like and challenging scenarios for you to respond to, take control, and mitigate.

## TOPICS COVERED INCLUDE:

- NFPA Standards: 1670, 1006, & 1001.
- Incident Command, Scene Control, & Responder Safety.
- Auto extrication, with and without hydraulic rescue tools.
- Shoring, Airbags, & Stabilization.
- Mitigating Hazardous Conditions
