WHY VIRTUAL STUDY GROUPS?

Give your most valuable asset – your experienced sales force – this opportunity!

Experienced agents are the most valuable asset to an organization and will contribute positively or negatively to the growth of an organization. As TAP is evaluated, some questions to ask are:

- How valuable are the people who make up your sales force?
- How valuable are the people in that group who have been with you three years or longer?
- How much do they contribute to the agency's and company's bottom line?
- Do you want to help them continue increasing their production and contribution to the company and their local agencies, not to mention their individual families?

- Do you want to cultivate experts who are willing to mentor less experienced agents in your sales force?
- Do you want to know what the commonalities are among your most prized members of the sales force?
- Do you want to retain these valuable individuals?
- Do you want to build a sustainable organization?

The atmosphere of a competitive, high-energy, focused group will fast-track experienced agents to greater success. TAP is the strategic program to accomplish and provide the desired results and outcome, leading to growth and sustainability.

WHAT ARE THE BENEFITS?
