## Coronavirus research at VA

Join the effort to prevent and treat COVID-19

### VOLUNTEER TODAY

As one of the nation's leaders in health research, we're working to find ways to prevent and treat the coronavirus disease (COVID-19). We're recruiting participants for vaccine clinical trials and other COVID-19 research studies now. Anyone over age 18 can sign up, including Veterans, friends and family of Veterans, and VA staff.

### VOLUNTEERING DOESN'T MEAN YOU'RE COMMITTING TO JOIN A RESEARCH STUDY

If you appear eligible for a study, we'll contact you to make sure you're a good match.

Then the study team will give you all the information you need to decide if you want to join. And you can leave a study at any time.

If you're a Veteran, your decision to join a study or not won't affect your VA health care or any of your VA benefits or services in any way.

### HOW TO FIND OUT MORE

Go to  
[www.va.gov/coronavirus-research](http://www.va.gov/coronavirus-research)  
to learn more and volunteer today

### As a research study participant, you can help us:

Better understand how COVID-19 affects different people

Find ways to prevent and treat COVID-19 for you, your family, and your community

Make sure vaccines and treatments are safe and effective in people of all ages, genders, races, and ethnicities

### As a research participant, you may also:

Learn more about your own health

Receive more regular health check-ins as part of your study visits

Get early access to a new vaccine or treatment
