CONSENT FOR AUDIO CAPTURE DICTATION

Important Notice to Our Valued Patients

At Wyoming Medical Associates, we strive to provide you with the highest quality of care and the best possible experience during your visit. To achieve this, we are implementing a new dictation app that will capture an audio recording of your visit notes and dictate them into a text format. This will enable our providers to focus more time on you.

Details:

- **HIPAA Compliance:** The dictation app we use is fully compliant with the Health Insurance Portability and Accountability Act (HIPAA). This ensures that your privacy and personal health information are protected at all times.
- **Privacy Protection:** Your information is safeguarded by multiple security measures. The data recorded will not be shared, sold, or imported to any location other than your secure medical record.
- **Voluntary Participation:** You have the right to decline the use of the dictation app at any time. If you wish to opt out, please notify our staff, and we will respect your decision without any impact on the quality of care you receive.
- **Consent:** If you do not notify us of your decision to opt out, we will proceed with implementing this dictation method during your visit.

We believe that this new approach will enhance your experience and ensure that your provider can dedicate more time to your care. If you have any questions or concerns, please do not hesitate to speak with a member of our team.

Thank you for your understanding and cooperation.

Patient Consent:

I have read and understand the information provided above. I consent to the use of the dictation app during my visits.
