## Bullfrog Rust Blocker Cups

**Bull Frog Emitter Cups (91112)** Consumer Version of VpCI-111.

### Stick it up in a Second...Stop Rust for a Year!

Stop rust for a year in any enclosed space up to 11 cubic feet. with the invisible molecular protection of VpCI's (Vapor Phase Corrosion Inhibitors). Ideal for any metal stored in an enclosed area. Used by the worlds largest companies to protect their critical assets from rust and corrosion.

### Features

- Works better than conventional rust inhibitors, yet is Environmentally and User Safe
- No nitrates, silicones, phosphates, heavy metals or other harmful chemicals
- Won't harm plastics, elastomers or painted surfaces
- Each emitter protects for a full year and works even under extreme conditions

### How it works:

Cortec VpCI's bond electro-chemically with metal surfaces to form a protective "molecular umbrella," sealing out the air and moisture that causes rust and corrosion.

### Use in:

- Small safe
- Electrical boxes
- Car trunk
- Tackle Box
- Tool Box
- Outboard motor
- Electric piano
- Many other areas up to 11 cubic feet.

**91112**

Protects 11 cubic feet

**Made in USA—Buy America**

### How to Use:

Simply stick a Bullfrog Rust Blocker Cup in any enclosed space where there is metal. The VpCIs migrate from the cup to all metal surfaces within the enclosed space sealing out air and moisture that causes rust and corrosion. Each cup will protect up to 11 cubic feet of space for 1 year and measures 1.25" high with a 2.5" diameter.
