Stain removal on equipment — Enviroklean Stain Remover

Pour Enviroklean Stain Remover into disposable cup.

Apply Enviroklean Stain Remover using soft disposable brush.

Enviroklean instantly lifts and removes unsightly running rust stains caused by crevice corrosion and waterline stains on painted metal surfaces, fiberglass, or gel-coat.

Enviroklean® will remove rust deposits from stainless steel. Works exceptionally well on pumps, winches, tools and other components exposed to rain, polluted water and caustic atmospheres

Rinse with fresh water for an incredibly clean finish.

For heavily stained areas—apply Enviroklean as above, rinse with fresh water, and repeat.

Benefits:

Enviroklean® is quick and easy to use.

Enviroklean® is an environmentally friendly water-based formulation.

Enviroklean® does not leave a film on the metal surface and is not affected by varied temperatures.

Enviroklean® can be used on almost all metals including stainless and aluminum.

Enviroklean® can dull some aluminum—this can be polished out.

ENVIROKLEAN Stain Remover allows surfaces to be cleaned of rust oxides without damage to original coatings.

Quickly remove unsightly and hard to remove running rust stains in seconds
Simply brush on **Enviroklean** and rinse with fresh water.
