Stainless Steel Grills

Cleaning of Rust Oxides and Preservation

Don't let running RUST STAINS ruin your grill—Enviroklean Stain Remover is an easy solution. Rust occurs on metals - but RUST STAINS occur on all surfaces - walls from rusting trim and security lights, counter tops from rusting cans, sinks and porcelain from rusting pipes and fittings, equipment from rusting seams, stainless steel doors and rails... you see it everywhere.

The good news - you can easily remove these unsightly stains and improve the image 100%.

1. Pour Enviroklean Stain Remover into disposable cup or small container.
2. Apply Enviroklean Stain Remover using soft disposable brush or sponge or blue scotchbrite pad.
3. Enviroklean instantly lifts and removes unsightly running rust stains.
4. Rinse with fresh water for an incredibly clean finish.
5. Enviroklean Stain Remover allows surfaces to be cleaned of rust oxides without damage to original coatings.
6. Treat Top Metal Cover Exterior surfaces with Light Vegetable Oil and the other surfaces with CarWell Rust COP to control further rusting or contact us for other coatings.

For heavily stained areas—apply Enviroklean as above, rinse with fresh water, and repeat.

Benefits:

Enviroklean® is quick and easy to use.

Enviroklean® is an environmentally friendly water-based formulation.

Enviroklean® does not leave a film on the metal surface and is not affected by varied temperatures.

Customer did a small test area and was very pleased with results—and proceeded to clean entire grill for a brand new looking grill
