Storing and shipping parts—Cortec VpCI Films

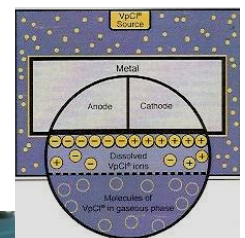

CORTEC VpCI wide variety of packaging solutions insure your metal components remain corrosion free during transportation and storage.

Advantages of Cortec VpCI (Vapor phase Corrosion Inhibitors) Packaging

- Cost Effective—saves time and labor.
- Easy to use, non-toxic, free of nitrates, phosphates and silicones.
- Multimetal corrosion protection.
- Immediate use of protected object without cleaning or degreasing upon removal from film.
- Components are ready for installation, assembly, or service.
- Reduces raw material requirements—need for oil eliminated as well as desiccants
- UV Protection-long term storage (MilCorr)
- Eliminates disposal cost—products fully recyclable

Ionic molecular action of VpCI creates a molecular corrosion inhibiting layer.

All Protected – with Cortec VpCI film
