Beef Packages: Are available in Whole and Half cow. See below for all information.

We offer a classic Hereford cow. The average live weight for a classic cow ready for slaughter is 700 to 800lbs which will yield between 350 to 450lbs of processed meat depending on cuts chosen.

Option 1:

Whole Beef @ \$3.00/lb (DOES NOT include processing), based on live weight.

Option 2:

Half beef @ \$3.50/lb (DOES NOT include processing), based on Live weight.

- On average a cow will be between 700 and 850 lbs. on the hoof. They will have a hanging weight of 400 to 600 lbs. If you half that it would be 350 to 425 lbs. on the hoof and 200 to 300 hanging weight. The hanging weight is what is cut and packaged.

Handling Fees include:

- Loading and transport to processors. We have a base price of \$75.00 (which is paid out of the \$200.00 deposit) within 100 miles of our ranch. If you choose a processor that is further than 100 miles a \$0.30 per mile charge will be added.
- Because we are not a factory farm, we have a limited supply of what is available. Please email or call for exact stock.
