My Razer ManO'War wouldn't connect at first, and I couldn't figure out how to use the USB replacement since Razer no longer supports it in their latest connect software. After contacting the seller, they sent me a link to the software, and my headset connected within seconds. I DO NOT PUT THE USB IN THE HEADPHONE I got stuck, and I had to open the headset to retrieve it. my bad. Fast shipping, well-packed, and great service. Highly recommend the seller if you're looking for a replacement! Wireless Headset USB Dongle receiver adapter for Razer ManO'War (#23689549300)

★★★★★

Wow these are fantastic. I've ordered 3-4 different replacement ear pads over the years for my Bose. usually on Amazon, and these are up there with the best. Very cushy and soft. Slightly tricky to install barehanded but that's how the genuine Bose replacements are so I see it as a positive. Tempted to order more now just to keep in a drawer.

81**47 in on Feb 20, 2025

★★★★★

I accidentally ordered the wrong color but it's fine. It's super comfy and it was easy to assemble/replace on my Bose QC 45 and because they are new the noise cancelling works good as new again. Will be purchasing again if they get worn out or if I want my exact color scheme again.
