

Breeding Excellence: Developed by RHRS, Lam Farm (ANGRAU) as a high-yielding OPV.

High Yielding: 2 MT/acre of premium dry chilli (up to a **39% yield boost** over local varieties).

Industrial Grade Quality: **45,000–50,000 SHU** pungency and **60–65 ASTA** colour intensity—perfect for export and extraction.

Smarter Pest Defense: Built-in genetic tolerance to thrips and fruit rot, reducing chemical pesticide costs.

Premium Post-Harvest: Retains its rich colour and structural weight during drying and storage.

Shorter Flower Turnaround: Initiates early flowering in just **37 days**, with a total crop cycle of **205–207 days**.

OPV Chilli – LCA 625
