			16 X 54 BENCH						
			16 X 24 CUSTOM SOAP/SHAMPOO NICHE						
				\$13,426.09					
							TOTAL		

WATER LEAKAGE: FRAMELESS/ SEMI-FRAMELESS SHOWER DOORS ARE NOT DESIGNED TO BE 100% LEAK FREE OR WATER TIGHT LIKE A STANDARD ALL FRAME UNIT. BY IT'S NATURE, THERE IS A MINIMAL AMOUNT OF METAL AND SEALS USED TO CREATE THE FRAMELESS APPEARANCE. THEREFORE, IT IS IMPOSSIBLE TO CREATE A FRAMELESS LOOK WITHOUT HAVING SOME MINOR SEEPAGE AROUND HINGES, DOOR SWEEPS, AND VINYL. IN ADDITION, SOME CONFIGURATIONS INCREASE THE POSSIBILITY OF WATER LEAKAGE DEPENDING ON THE NUMBER & PLACEMENT OF SHOWER HEADS IN RELATION TO THE DOOR & OTHER VINYL SEALED OPENINGS. SUPERIOR TAKES EVERY STEP NECESSARY TO CONTROL THIS TYPE OF LEAKAGE, BUT CAN NOT GUARANTEE THAT THERE WILL NOT BE SOME MIGRATION & COLLECTION OF WATER AROUND HINGES, SEALS, THRESHOLDS & DOOR SWEEPS

UNITS WITHOUT HEADERS: Certain Frameless units can be installed without a header across the top of the unit. That determination is based on the design, size, and style of unit. Superior ensures all designs are approved by its supplier and safe for installation, but unless additional support is added, units without a header do not have as much overall stability as units that incorporate a header. Therefore, there may be some minor movement noticed during operation of the door
