

UNLOCK THE LIMITLESS POTENTIAL OF FLUID FLOW WITH FLUID FLOW FRONTIERS' TOP-OF-THE-LINE SILICONE TUBING

As an industry leader in flexible tubing solutions, we pride ourselves on delivering solutions with meticulously designed products

Experience seamless flow like never before with Fluid Flow Frontiers as your trusted one-stop solution

**ISO 9001:2015 AND ISO 13485:2016
CERTIFIED**

Our products meet the highest standards of quality and reliability. Whether you're in need of pneumatic or hydraulic fluid conveyance solutions for industrial applications, we've got you covered

"WHAT WE OFFER"

- ✓ Various Sizes Of Silicon Tubing
- ✓ Silicone Braided Hoses

**FLUID FLOW
FRONTIERS LLP**

PRODUCT ADVANTAGE

TRIED & TESTED MATERIAL

Hoses available with different grades of reinforcement: Nylon braiding, Polyester braiding, SS316L Helical wire braiding
Excellent material stability (mechanical & Chemical) Low Friction Hoses
Available in high purity Platinum Cured and Peroxide Cured grades.

PERFORMANCE & VERSATILITY

Wide range of working pressure & temperature
Wide Temperature Range (-60°C to 200°C): Versatile for various industries.
Resistant to UV, Ozone, and Moisture: Suitable for outdoor and harsh conditions.
Non-Toxic and FDA Compliant: Safe for food and medical applications.

SILICON TUBE/HOSE SIZES

Parameter

Tubing ID	1 mm – 100 mm
-----------	---------------

Hose ID	1/4" - 2"
---------	-----------

Temperature	-60°C to 200°C
-------------	----------------

Tubing/ Hose wall thickness

Thickness can be maintained as per application

APPLICATIONS

FOOD AND BEVERAGE

PHARMACEUTICAL

INDUSTRIAL FLUID CONVEYANCE
