Woven Radiance Quilt

Designed by Stacey Day

Finished Size: 77" x 95" (1.95m x 2.41m)

Technique: Foundation Piecing

Pattern available at [freespiritfabrics.com](https://www.freespiritfabrics.com) in June 2020

My "True Colors" is a collection of designs that are available in the core colors that make up the World of Tula Pink. These essential pieces are designed to highlight and enhance my core fabric collections; they support my fabric collections and also stand on their own as a vibrant expression of color and print.

Our beloved "Fairy Dust" which proved so vital as a background print, exploded into a collection of bright pastels, creating a perfect backdrop to the bolder colors of my other fabrics. No one ever said that a background needed to be boring.

"Mineral", a new print that uses lines to create a densely detailed interpretation of natural stone formations like agate and malachite. These lines visually combine to create a textured solid.

"Wildflower", a bold silhouette of tangled blooming vines in high contrast color combinations, are meant to highlight interesting color combinations, kick start a quilt and bring the whole thing to life.

The final print, "Hexy", comes in eight 3 color versions and 4 rainbow ombre versions - adding a hard geometric to the existing Poms Poms and Tent Stripes. The "Hexy" nicely balances the three new organic designs.

True Colors is all about options, creating the essential Tula Pink palette.
