partner network

United States Census Bureau

Decennial Applicant Personal Payroll System Support (DAPPS) – Developed an end-to-end solution focusing on scalability to meet critical, peak-volume Census operations.

- Supports up to 800,000 weekly payees, 3.5 million applicants in 494 national offices.
- Deployed multiple successful PeopleSoft upgrades, including the first Federal agency to upgrade to 9.0 and now 9.2

Census Human Resource Information System (CHRIS) – Enhanced HR technology services and automated processes to improve usability and performance.

- Modernized the HR system to streamline HR services through the development of reusable common components for core functionalities.

United States Marine Corps

Marine Corps Logistics Command (MARCORLOGCOM) – Deployed the Navy SAP ERP system that manages and deploys key customizations for the Marine Corps.

- Provide key lead resources in multiple business areas who act as a liaison between the Marine Corps, the systems integrator, and other ERP constituents.

Administrative Office of the United States Courts

Human Resources Information Management System (HRMIS) – Modernization and Operations & Maintenance (O&M) for a PeopleSoft-based Human Capital Management and Payroll system, reducing non-value-added manual processes, improving the efficiency and effectiveness of human resource management processes.

- Enhanced payroll services supporting 33,000 employees across 400+ Courts locations.
- Developed two HCM upgrades – PeopleSoft 8.9 to 9.1 and 9.1 to 9.2
- Implemented robotic process automation (RPA) for test automation and payroll validation

Online System for Clerkship Application and Review (OSCAR) – Allowing Federal Judges more time to focus on their Court dockets by providing automated recruiting tools and workflows, thereby, reducing the amount of time required for Clerk-hiring activities.

- Customer Service and supporting the recruitment of a talented Federal Courts workforce.
- Tier 1 / 2 Help Desk support providing desk side support, training and subject matter expertise

United States Department of the Interior

Financial and Business Management System (FBMS) – Provided leadership and functional / technical expertise for the design, configuration, coding, testing, and deployment for multiple bureau rollouts of the SAP based FBMS system.

- Worked with the government end users to refine and modify business requirements and address testing and deployment issues as requested by the government
- Led, planned, and conducted the Training initiative for multiple DOI bureaus for the deployment of the FBMS SAP system to government end users
