It's important that the public understands that TIRZs are a creation of the city and that the administration may have projects recommended to the TIRZ as well.

Project must be located in 5th Ward Service area

For questions, please email admin@fifthwardtirz18.com

A suggestion and/or board consideration does not guarantee approval or inclusion as there are multiple layers of evaluation and approval. This process is to help identify potential projects and focus areas.

Thank You
