Dear Representative,

I am writing to share my support for AB23 and AB24.

AB23 and AB24 are excellent bills that support freedom and choice here in our home state of Wisconsin. AB23 prohibits government officials from mandating vaccination against coronavirus. A vaccination is a medical procedure that carries risk, and as such it should always remain voluntary. Government officials should not have the power to compel ANY medical treatment, including vaccinations. AB24 prohibits local health officers from closing or forbidding gatherings in places of worship, and freedom of religion is of the utmost importance, especially during trying times.

While the Governor has vetoed these bills already, I consider them to be of utmost importance in defense of freedom and personal choice. As your constituent, I urge you to please vote with a majority of your fellow assembly members and VOTE YES in support of this legislation.

Sincerely,
