My Passion for Mentoring...

I have a deep and abiding passion for teaching and mentoring others, driven by a genuine desire to empower and inspire others. I find immense fulfillment in guiding individuals as they unlock their potential, offering support and insight that helps them navigate their learning journeys and personal growth. My commitment to teaching extends beyond just imparting knowledge; it's about fostering a supportive environment where people feel encouraged to challenge themselves and reach their goals. Witnessing the progress and success of those I mentor is incredibly rewarding, and it fuels my dedication to continually improve as an educator and mentor.

My Passion for Learning...

I have a profound enthusiasm for acquiring new knowledge and skills, which drives me to constantly seek out opportunities for learning and growth. My curiosity fuels my passion for exploring diverse subjects and mastering new concepts, whether through formal education, hands-on experiences, or self-directed study. This relentless pursuit of knowledge not only keeps me engaged and motivated but also enables me to adapt and thrive in various situations, continually broadening my perspective and enhancing my abilities.

My Passion for Software Development...

As a Software Engineer, I am passionate about creating innovative solutions to complex problems. With decades of experience, I specialize in developing Interactive applications that are both user-friendly and highly functional. Take a look at my detailed Credentials and Work Experience herein and let's discuss how I can help bring your project to life!

My Miscellaneous Passions...

I enjoy cooking healthy meals using as much organic ingredients as possible. I enjoy playing the piano and enjoy playing tennis and pickle ball when it's not too hot outside. I enjoy gardening in my yard and winning yard of the month from my HOA. I also enjoy being on the water, recreating on a quiet lake or rafting down a cool river; being a Pisces, I am a water person and I am most comfortable and at home on or near water.

I also enjoy many board games, and certainly a good game of chess and I am always up to play Scrabble.
