Subject: Recommendation for Dennis Scott

To Whom It May Concern,

I am pleased to write this letter of recommendation for Dennis Scott. He has worked with my team at AGCO for over 7 years, originally hired for a single project and then retained for many other projects and general IT development support. Dennis has been an integral part of our team, but due to industry downturn all contractors have now unfortunately been terminated. This is a big loss for our team as he has always demonstrated exceptional skills, thoroughness, and dedication. Dennis can handle complex projects efficiently and makes it a point to understand the business reason behind requests. He is not only skilled developer but also a positive team player who brings enthusiasm to every task.

Dennis has a very strong work ethic and is always willing to go above and beyond to ensure success. I have no doubt that he will be a valuable asset to any organization that he chooses to join, and I wholeheartedly recommend Dennis for any opportunity that he seeks.

Sincerely,
Janine O'Sullivan
Team Lead / IT Analyst III
