DISCLAIMERS

Acknowledging the difficulty of trials is essential. Hardship and pain are real, and it is natural to struggle with them. Faith does not eliminate struggles but offers strength and the assurance of God's presence through them.

DIRECTION

Faith, like gold, is refined through fire. Trials are not meant to destroy, but to build perseverance, reliance on God, and spiritual maturity. Embrace perseverance, trusting in God's refining work in His presence in all circumstances.
