

Chum Suggestions

CB = Chumbobber, RB = Rattlebobber, GB = Glowbobber, MB = Minibobber, MX = Maxbobber

Target Species	Bobber Type	Chum and Bait Suggestions
Bass	CB, RB, GB,	Place a small live Minnow, Shad or Crawfish in the chum well and a live Minnow, Shad, or Crawfish on the hook. Cut Minnows, Shad, Crawfish, Cicadas and Crickets work well as chum for Bass and when paired with the Rattlebobber, provides an explosive combo as it mimics the Cicada sound.
Bluegill	CB, GB, MB	Freshwater Shrimp, Cut or Whole Redworms, Mealworms, nightcrawlers (chopped), Wax Worms, Crawfish (cut), Crickets, Maggots & other Larvae, such as grubs, can be placed in the chum well with the corresponding bait on the hook to draw in and hold a school of fish at your hook.
Carp	CB, RB, GB, MX	Sweet Corn, Cherry Tomatoes, Peperami/Sausage, Boilies, Potatoes (cooked is fine), Tiger Nuts, Spam, Maggots and Worms are all know to be great Carp attractants that will fit excellently into the chum well of your favorite Chumbobber.
Catfish	CB, RB, GB, MX	Use Fresh Mud Shad, Cut Herring or Menaden are excellent Chums for Catfish. Nightcrawlers, Crawfish, Redworms, Chicken Livers, Dog Food, Cat Food, Hotdogs, Cheese (stinky) and Freshwater Shrimp have all been shown to be great Chum options for Catfish.
Crappie	CB, GB, MB	Place a small live Minnow in the chum well and a live Minnow, on the hook below. Commercial Crappie baits work as excellent attractors in the Chumbobber, i.e. Pautzke Crappie Fireballs or Atlas Mike's marshmallow baits, as do Redworms, Insects and small Crawfish.
Gar	CB, RB, GB, MX	Cut Mullet and Cut Shiners placed in the chum well as chum with live versions on the treble hook below. Leeches and other blood baits also work well as Chum for Gar.
Redfish	CB, RB, GB, MX	If fishing with dead shrimp, pull off those heads, pinch them, and then place them in the chum well. For maximum effect we recommend pairing with the Rattlebobber to hit more fish senses. Squid, Cut Herring, Menaden, Crab Chunks, Shrimp are all effective Red fish chums.

-A small piece of sponge, saturated with one of the hundreds of fish attractants on the market works in most situations.

-Pelleted fish food, species specific (bluegill, bass, catfish, crappie), is always an easy way to use the Chumbobber.

IF YOU CHUM, THEY WILL COME
