

what is vitiligo?

you can't catch vitiligo

vitiligo doesn't hurt

remember

vitiligo is condition that causes white spots to show on skin and hair

all vitiligo does not look the same

vitiligo can show up no matter what color your skin is

vitiligo can seem scary if you don't know what it is or you haven't seen it before

vitiligo can show up at any age

vitiligo can be scary for people that have it too

millions of people around the world have vitiligo like me!

vitiligo doesn't hurt but being made fun of does

people have feelings

for more information visit us online **LITTY** *ligo.org*

so be kind and be a friend!
