CATEOGRIE 300-306 ART QUILTS

Designed and made entirely by one person, with no commercial pattern used, and not professionally quilted, except 306 may be professionally quilted. There is no size restriction in the art quilt categories. May not be mounted in or on a rigid frame. False backs are allowed only in 306.

- **300 – Non-Representational Art Quilt** – Non-Representational art does not represent a real object or being. It leaves it to the viewer to interpret the meaning of the art based on the visual cues presented by lines, textures, colors and values. Some people think of this as “abstract,” but for the Non-Representational category, the quilt should not depict a real object, even in abstracted form.
- **302 Representational Art Quilt** – Representational Art depicts an object or being in the real world. It may be realistic, impressionistic, abstract (but representing a real object), surreal, or fanciful/whimsical. Folk art (also known as cultural or primitive art) is also representational but will probably fit better in categories 100-136.
- **306 Open Art Quilt Category** – Any art quilt that does not fit into the above categories. May or may not have three layers. May have a false back, which may be either single unquilted layer on the back or a separate quilt attached to the back. May be made by more than one person, and may be professionally quilted. May be inspired by a commercial pattern or made with a pre-printed panel. (Pre-printed panels are also allowed in the traditional categories, 100-204).
