## *Crowdfunding w/ Kiva to Get Our Doors Open*

We've been working hard behind the scenes to secure the funding needed to finish our remodel and open up the café! We've been approved for a **Kiva Loan**, which is a special crowdfunding loan backed by lenders and trustees at 0% interest.

Right now we have **10 days left to reach 15 private contributors of only \$25 a piece** to be able to open the campaign up worldwide, so if you have the means, please consider lending!

## *WhiteMEOWter Pride*

Whitewater and the surrounding areas have been so welcoming to us from the moment they heard about what we want to bring to the community!

As a **THANK YOU** to the city itself, we commissioned a **local artist, Kayla Glaser**, to draw us a special design to show off how proud we are to be here!!

## *Keeping My Paws On The Keyboard w/ Kittens Quill*

### **I Love Mew, Meow and Furrever...**

Earlier this month, I made a #didyoumeow post about the love languages of our cats. In today's lot I'm gonna go a little bit further into detail not only about the love languages, other cats, but also the book.

If you recall in 1992 and Gary Chapman published a book called "the five love languages" from this book many of us to this day have learned how to understand how to express and receive love for one another and put the way we express our love into a language that can be translated to their potential partner, whether it be spoken, felt or heard, or expressed through ways of other means.
