

VOLUME LASH EXTENSIONS – AFTERCARE ADVICE

To keep your volume lashes looking their best and lasting as long as possible, please follow these aftercare tips:

First 24–48 Hours:

- Avoid getting your lashes wet (no steam, saunas, or swimming).
- Avoid oil-based products near the eyes.
- Do not rub, touch, or play with your lashes.
- Avoid wearing eye makeup or mascara.

Ongoing Care:

- Gently cleanse your lashes daily with a lash-safe cleanser to prevent build-up. (available at TEN Beauty)
- Avoid oil-based skincare and makeup around the eyes, as oils break down the adhesive.
- Brush your lashes daily with a clean spoolie to keep them fluffy and tidy.
- Avoid sleeping face-down or on your side if possible.
- Do not use eyelash curlers or mascara.
- Book infills every 2–3 weeks to maintain fullness and shape.

Proper aftercare will help protect your natural lashes and extend the life of your extensions. If you experience any irritation, contact Sarah @tenbeauty
