

LASH LIFTING AFTERCARE

1. Please wear a pair of sunglasses or glasses of some sort to bed for the first night, the arms of the glasses prevents you from being able to set the lashes in a different direction than they have been set during treatment.
2. Avoid mascara or water for the first 24 hours.
3. Avoid chlorine & steam for 48 hours.

The aftercare with a lash lift is minimal.

You have received a conditioning treatment after your treatment to nourish your lashes.

Your lash lift will last around 6 weeks depending on your lash cycle.

I hope you enjoy your lash lift, tint and conditioning treatment as much as enjoy doing them.

Any further questions or enquires please give me a call on the number below.

Many thanks
