CUMULUS GRID SYSTEM

CUMULUS GRID SUSPENSION SYSTEM

Panels are assembled in groups and lifted into place after ground assembly. Cumulus grid system comes in a standard mill finish; also available in black or any specified custom color.

FEATURES:

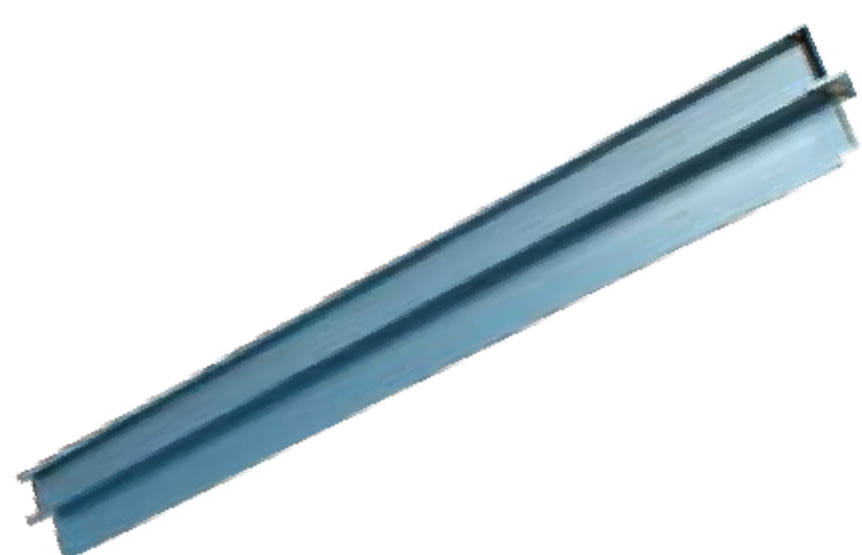

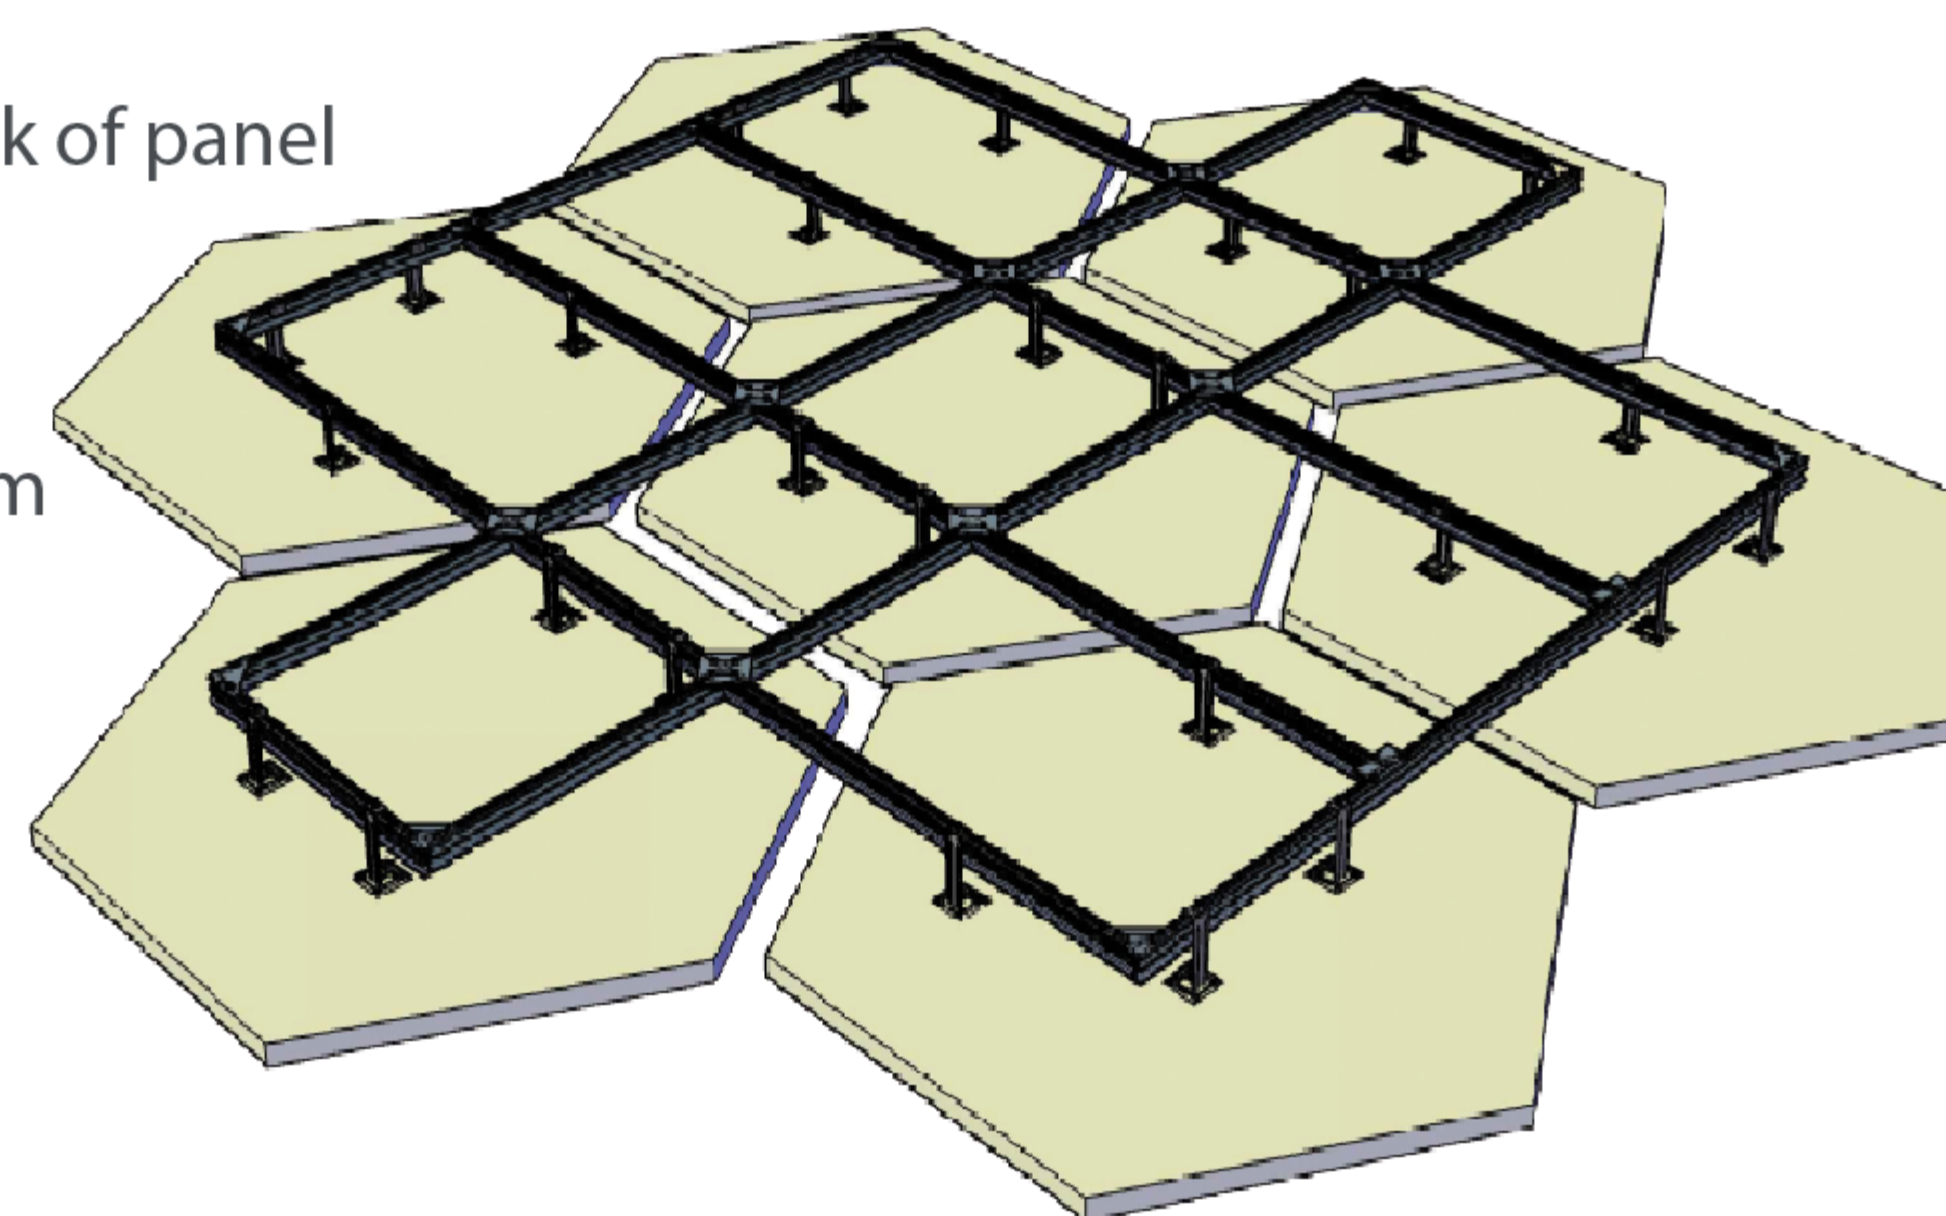

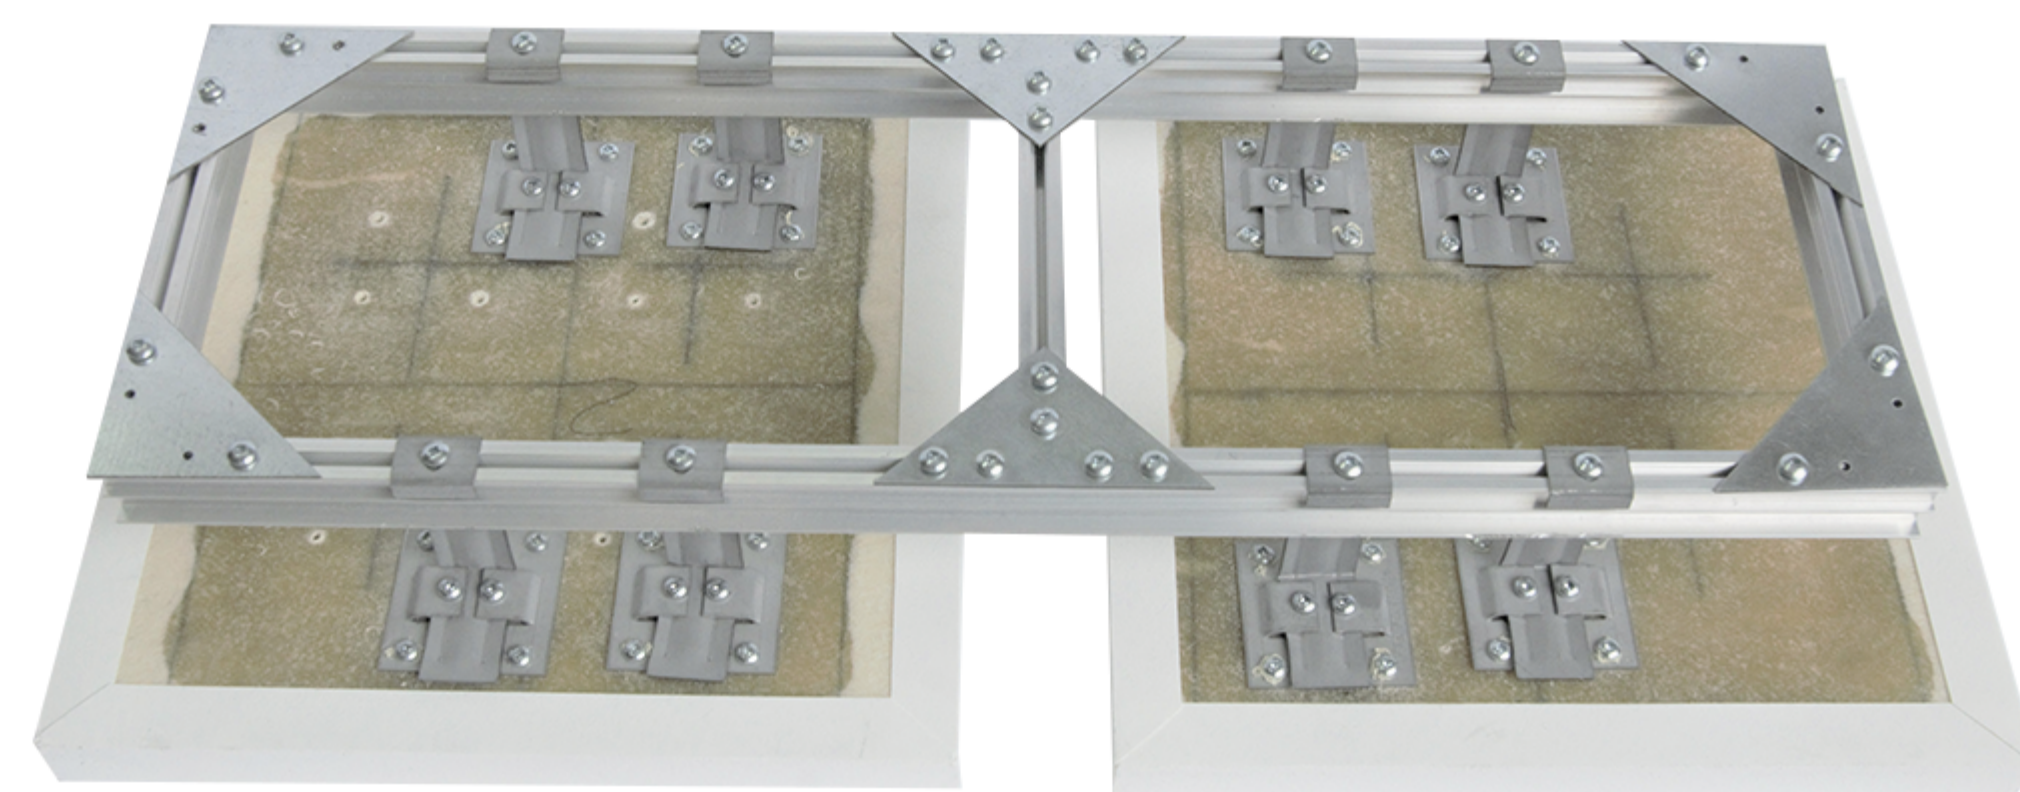

- Suspension system is custom engineered and manufactured for each specific project.
- Grid is pre-cut to size and labelled for ease in installation for field assembly.
- Grid connecting Plates fastened to grid to form a rigid system.
- Made from 6063 T5 aluminum extrusion.

COMPATIBLE PRODUCTS (PANELS):

- SuperCluster acoustical ceiling clouds
- Aura ceiling panels

GUIDELINES:

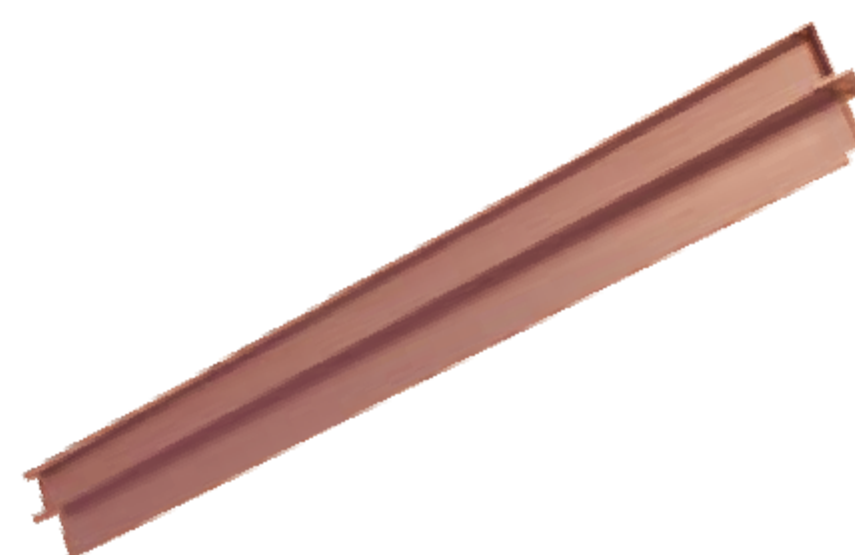

- 1" Reveal (Minimum) between panels
- Butt joints possible as per conditions provided
- If panels are being suspended at different heights, it is recommended to finish back of panel
- Fixtures can be integrated into the panels
- Linear Fixtures can be located between panels
- All flat panels with unique shapes are possible to suspend with our Cumulus system
