

LA HABRA YOUTH BOWLING PROGRAM

PHOTO/VIDEO PERMISSION

In the La Habra Youth Bowling Program, we use photographs and video recordings as useful tools not only to share with our youth bowlers for training purposes, but also to shout out youth achievements and accomplishments. We find this extremely important to help boost their confidence and self esteem. This also gives us the opportunity to help promote the Junior Program for further growth, sponsorships, donations, and more.

The La Habra Youth Bowling Program has a Website, Private Facebook Group, and an Information Wall in the entry to the bowling center that we use to showcase our junior's achievements and keep bowlers and parents updated on the program and future events. We may photograph and/or video record your child to showcase on any of these platforms. Videos and/or photographs may be up on these platforms for an undetermined amount of time.

We may also record your youth during practice and/or league to provide a visual aid to your child during a discussion of improving their bowling skills. These recordings may also be posted or shared on our Facebook or our Website to share a specific technical skill or to provide information about the Junior Program.

You have the right to view, request, and receive copies of any photograph and/or video recording of your child at any time after they are taken. Photographs and/or video recordings will not be sent between youth and coaches; only via the coaches and their parent(s)/guardians.

I authorize the coaches of the La Habra Youth Bowling Program to photograph, and/or video record my youth for training purposes, as well as sharing via the website, social media, and junior wall to showcase their achievements and to help promote the La Habra Youth Bowling Program.

Youth Name: _____

Parent/Guardian Name (Print): _____

Email: _____ Phone Number: _____
