## Benefits of Continuing Math in the Summer

As with any skill, practice makes it perfect; that is why continuing math program during the summer is extremely important for students' continuous success. From our experience, students who continue math during the summer have a great head start in school when the new school year starts at the end of August as they keep practicing essential math skills on a daily basis without interruption. Please note that just for the summer (from June 12 to August 13, 2017) our math sessions are offered on weekdays from 1pm to 5pm. Starting August 14, 2017 we are back to our regular schedule, with math sessions available in the evenings and on weekends in addition to weekday sessions.
