Shepherds Huts

# Shepherds Huts

This is a modern shepherd's hut with a gently curved or pitched corrugated metal roof that ends just above the height of the windows, blending industrial and rustic aesthetics. The structure features vertical or horizontal timber cladding, black spoked wagon-style wheels, a framed door with a glass panel or a solid door option, and a side window. Elevated on a sturdy black frame, the hut is accessed via a small wooden step, creating a charming and functional design.

- A range of cladding options are available, including Redwood tongue-and-groove, larch, or cedar.
- Constructed with a 3x2 timber frame.
- Durable steel roofing sheets.
- Timber doors and window frames.
- Double-glazed windows for added insulation.
- Fully insulated floor, roof, and walls.
- Timber cladding inside, fixed either horizontally or vertically.
- Available with or without an electrics package.

Electrics package includes:

- Spotlights, 4 double sockets, 2 outdoor lights, Electric wall panel heater, Mini fuse board.

For added comfort in winter, a log burner can be installed.

Fitting and delivery are available. Huts can be delivered fully built if there are no access issues and a facility to unload is available (subject to delivery quotation).

Wheels and tyres are available as an upgrade.

Note: Not to be used on a public highway.
