Review by Joe Kruk in Levittown, NY

Project: Install Wood or Stone Laminate Flooring

Comments: Ian was a pleasure to work with. He and his team handled themselves very professionally. Ian was able to quickly come to my house to give me a quote, which was reasonable and was able to schedule the work in a very fair timeline. When it came time for the work, they were respectful and very polite. They respected the fact that this was someones home which I think is very important...Their work was very clean and they took the time to make sure the floor was installed meticulously and made sure all my furniture was back to normal before leaving. I'd highly recommend using Flawless Floors Kitchens N More for any of you construction projects.
