

Pricing Policy

At trusted Touch Medical Aesthetics I like to maintain a fair and transparent pricing policy. That way there are no unwanted surprises, and you know from the outset how much your treatment will cost*.

- Initial consultation fee is £50, and this is taken off the full cost of the treatment.
- A deposit of 50% of the treatment cost is required on booking any treatment. This is to cover the cost of generating the prescription and purchasing the product.
- The remaining cost of the treatment to be paid on the day.
- Payment by BACS transfer preferable, although I can accept cash if necessary.
- I am unable to offer refunds on treatments carried out.

**Occasionally with filler I may over-quote. By this I mean that at the initial consultation I may feel that you need 3ml of filler, but on the day I may only need to use 2ml to get the result you want. Rest-assured I will only charge you for the filler used.*

Example for 3 areas of Botulinum toxin type A:

If you book your treatment during your initial consultation:

- On the day cost £125 (50% of total cost, including consultation fee)
- Further £125 on day of treatment (remainder of cost)
- Total £250

If you need time to think, but do book a treatment within 28 days:

- On the day cost £50 (stand-alone consultation fee)
- On booking treatment £100 (50% of remaining cost)
- Further £100 on day of treatment (remainder of cost)
- Total £250

If you book a treatment over three months after initial consultation:

- On the day cost £50 (stand-alone consultation fee)
- On booking treatment £125 (50% of treatment cost)
- Further £125 on day of treatment (remainder of cost)
- Total £300
