

## BENEFIT

There are too many benefits to list in one place. There are the social benefits of providing a facility for young people to pursue an athletic activity that they love. There are public health benefits to having a safe place for young people to develop active lifestyle.

Skate jams and contest can be fun and instrumental in bringing the community together.

With its ocean view our location is hands down the best skate park on the east coast. Sure to attract skaters and families from all over to enjoy Fernandina and what it has to offer
