CONSOLIDATE, COOPERATE, COMMUNICATE!

Help us insure an actionable agenda for EU citizenship!

- How to help overcome sharp divisions of opinion about Europe by making EU citizenship as relevant to those who stay at home as to those on the move?
- Why when more and more young people identify with European citizenship is this concept taken for granted and lacking champions and an agenda in the EU Institutions?
- What are the boundaries of European citizenship?
- Could new political, social and environmental rights be added to EU citizenship?
