

1. Ask for an executive briefing on TB

In PNG a person dies from TB every 2 hours

2. Become an annual subscriber to Businesses for Health

Learn to prevent the development of drug resistance by accessing high quality treatment of drug susceptible cases of TB

3. Get our help to develop a TB workplace policy and program

Drug resistant TB is very difficult to treat
3 out of 10 TB patients are HIV +

4. Establish a TB response team and train staff as TB wardens in every workplace

In PNG, everyone is at risk of TB infection at work, home and play

5. Learn to prevent transmission at work through infection control

Enabling immediate access to FREE testing and W.H.O. standard treatment reduces TB burden and prevents the spread of drug resistant TB

6. Create a TB sick leave agreement and reduce unnecessary time off

Training one person in your workplace in active TB case finding will save lives.

7. Save the lives of valuable employees and their family members

One annual small business subscription plus one TB training fee is 10% of the annual salary of one technician paid K30,000 PA

The Businesses for Health training unit is run on a cost recovery or not-for-profit basis. Your annual subscription and training fees are used to employ highly skilled TB educators who provide current world-standard TB knowledge, skills and training materials designed specifically for application in PNG workplaces. We will assist all subscribers in developing their TB policies.

Annual Subscription Fee is based on company size:

Small <20 employees = K1500 Medium = <100 employees = K3000 Large >100 employees= K5000

Businesses for Health will support workplace TB warden trainees: TB in their work to identify co-workers with symptoms of concern and support them into the testing and treatment pathway

Workplace TB Wardens Training Dates to June 2018 (a date to suit your business)
