GLOBAL SOLIDARITY, SHARED RESPONSIBILITY

World AIDS Day Workplace Learning Activities and Know your (HIV) Status this World AIDS Day

HIV Facts

You cannot access treatment for HIV infection if you do not know your status.

The only way to know your HIV status is to get an HIV test.

In recent years one million people have died each year from HIV because they didn't know they were HIV positive and were NOT on treatment.

Ensure everyone in your workplace knows and understands their rights to live, travel, study or work irrespective of HIV status. People living with HIV have the same benefit as a normal person including fair treatment at work and they are covered by the HAMP Act. Key words to discuss from the song.

- HIV Testing: HCT, PICT, VCT
- The Law and rights to work and live with HIV: HAMP Act of PNG
- Social pressures, stigma and discrimination

Activity

Swinging joined hands in and out over each other's hands. Swing in, out

People living with HIV

Look just like you, and just like me

Clapping right right right right , clapping left left left left

Know your status! Know your status!

Tap head shoulders thighs, Tap head shoulders thighs,

Up in the highlands, down by the sea

The only way to know is HCT!

Clap, tap right, clap, left tap ...

He said, she said, and tok baksait

Clap tap right, clap left tap ...

It's your business and you can't be sacked.

Because we've got the

high five, high five, high five
