

Businesses for Health Workplace HIV Update Workshop

HIV acronyms quiz

#EQUALIZE World AIDS Day 2022

Purpose:

The world of TB and HIV is full of acronyms. Using acronyms to describe people or complex problems is exclusive. Work hard to use full explanations about the human immunodeficiency virus in your programs, activities, and conversations

• Complete the table below

Solutions

AMR	Antimicrobial Resistance
ANC	Antenatal Care
ART	Antiretroviral Therapy
BCC	Behaviour Change Communication
CD4	A Test of Immune System Strength
CPHL	Central Public Health Laboratory
DBS	Dried Blood Spot
DNA	Deoxyribonucleic Acid
GBV	Gender Based Violence
HBV	Hepatitis B Virus
HIV	Human Immunodeficiency Virus
НСТ	HIV Counselling and Testing
HIVST	HIV Self Testing
HPV	Human Papillomavirus
IPT	Isoniazid Preventive Therapy
КР	Key Population
МСН	Maternal and Child Health
MSD	Men of Diverse Sexualities
MSM	Men who Have Sex with Men
NCD	National Capital District / Non Communicable Disease
NDoH	National Department of Health
AIDS	Acquired immunodeficiency syndrome
01	Opportunistic Infection
PCR	Polymerase Chain Reaction
РСР	Pneumocystis Carinii Pneumonia
PHA	Provincial Health Authority
PITC	Provider Initiated HIV Testing and Counseling
PLHIV	Person Living with HIV
PMTCT	Prevention of Mother to Child (HIV) Transmission
POC	Point of Care
PrEP	Pre (HIV) Exposure Prophylaxis
RDT	Rapid Diagnostic Test
RH	Reproductive Health
SDG	Sustainable Development Goal
STI	Sexually Transmissible Infection
ТВ	Tuberculosis
VL	Viral Load
VMMC	Voluntary Medical Male Circumcision
