Positive Pathways

to end new HIV infections & end AIDS

Gateway Hotel, Thursday October 19, 2023

2023 B4H: TB & HIV 1-day HIV workshop

Over 72,000 people are living with HIV in Papua New Guinea.

In the 2023 UNAIDS snapshot, 6,500 new HIV infections were recorded. This is a 91% increase in new infections compared to the 2021 report.

The 2023 UNAIDS snapshot also reported 1,100 AIDS-related deaths, representing a distressing 120% increase compared to the 2021 report.

At the workshop

- we will explain the statistics:

At the workshop

- you will learn more about transmission, risk, treatment and how end new HIV infections, end TB/HIV co-infections and end children being born HIV positive

At the workshop we will learn how to create a healthier more productive workforce for Papua New Guinea.

You will leave with

- World AIDS Day workplace program ideas and activities
- A determination to make a difference
- A passion to promote the WEAR RED campaign of World AIDS Day

Make your workplace, family and communities lead the change needed to end HIV and AIDS in PNG.

Call 7676 2482 now to register

Together, we will make a difference!
